## ACADEMIC EXCELLENCE

Holy Family School encourages students to reach their highest potential with a **personalized academic environment**. Our well-rounded curriculum, taught by our **state certified educators**, includes **technology, music, art, and physical education**. Our students develop **deeper learning skills that prepare them for a lifetime of success**; solving complex problems, working collaboratively, and communicating effectively.

## Faith & Values

Education at Holy Family School is more than just academics; it is also about **strengthening faith and values** learned at home and in church. We welcome families of all religious backgrounds with open arms. In an atmosphere founded on faith and God's teaching, we help students to **naturally develop into caring and responsible young adults**. Long after their days at Holy Family School are over, they will benefit from their school foundation.

## Welcoming & Safe Community

Our school family is a closely-knit network of teachers, staff, students and parents working together to educate the whole child. You truly feel a **sense of community when you walk our halls**; allowing for a nurturing learning experience. Safety on school grounds is a primary concern at Holy Family School. We have strategically placed security cameras and a main entrance buzzer with video access system to keep our students and staff safe. We work closely with local fire and law enforcement to maintain accurate mapping and training.
